

SCHOOL ✈️ WITH OUT FRONTIERS! 🚢

& THE HARA-GOE PROJECT  
PRESENT

sch  
Poetry  
# (ARTS)

After last year's 'Roots' have lain in fruitful darkness, this second edition of the open learning community experience is dedicated to nurturing our creative seeds and muses. In a time when the stories we live by have become untenable, this will be a space to open and deepen, perceive and imagine, re-root and evolve. A place for **Agile learning** and creating through **nature**-based practices, games, storytelling, soul Poetry, embodiment/dance, to mention but a few of the myriad of powerful ways that our joint creativity will allow us to think and feel more deeply about our arts, hearts and earth. All leading up to a public performance.

Rooted in the integrity of the Stagones test site, molded by the [Hara-Goe project](#), an educational, cultural and artistic initiative, and jointly animated by [sChool ✈️ with Out frOntiers! 🚢](#) a lively laboratory of free and open learning connected to the world, with all, by all and for all.

**JULY 31 – AUGUST 9 2020**  
**@ STAGONES TEST SITE**  
**EVIA ISLAND**
